

QUIET ZONE

Please allow a 6mm (30mm at full size) quiet area for any important content from the very top of the artwork (see guide).
This will ensure the top metal rail doesn't interfere with your design.

Width: 2000mm (at full size)

**This template is setup at
20% scale of full size**

**Your PDF should be supplied
with fonts outlined**

**PLEASE REMOVE ALL GUIDES AND MARKS BEFORE
SUPPLYING YOUR PRINT-READY PDF(S)**

Please make full use of the bleed area on this template and include this
WITHOUT crop marks when exporting your print-ready PDF(s).

**PLEASE REMOVE ALL GUIDES AND MARKS BEFORE
SUPPLYING YOUR PRINT-READY PDF(S)**

Please allow a 10mm (50mm at full size) quiet area for any important content away from the bottom section (see guide).
This is to safely ensure your design has some breathing space.

QUIET ZONE

The bottom 30mm area (150mm at full size) must only be used for background colours/images or left blank. This section will be hidden and rolled into the unit mechanism. Your 2m tall design should bleed at least a third of the way into this area to allow for any height variance of the unit and prevent any white edge showing.

Banner Height = 2m + 150mm feed in strip.

Banner Height = 2m + 150mm feed in strip.
