

-  **3mm Bleed area**
This will be trimmed off during the finishing process.
-  **10mm Safe Zone**
Place all text, images (unless you want them to bleed), or important graphics within this area to avoid them being trimmed off during the finishing process.
-  **Trim Line**
This is the finished size of the page.
-  **Spine**
This is the edge of the book, to determine the width this needs to be, use our Spine Calculator located at: www.flexpress.co.uk/spine-calculator/
-  **Inside Spine**
This is where the pages are bound onto the cover. Anything printed here will not be visible, and should be left blank.

BACK COVER

SPINE - WIDTH WILL CHANGE DEPENDING ON PAGE QUANTITY/THICKNESS
